Efficient management of property refurbishment and general building repairs projects with PfH

This DPS for Responsive Repairs and Void Works is designed to provide organisations with additional and flexible capacity to manage their repair and maintenance needs efficiently. This solution offers a streamlined procurement process, enabling swift engagement with regional suppliers who have the necessary capacity and capability. By leveraging this DPS, organisations can ensure timely and effective management of property refurbishment and general building repairs projects, ultimately enhancing customer satisfaction and operational efficiency.

Solution design

Our team of procurement experts can work with you to design your solution and create the associated tender documentation. Drawing on decades of experience we provide trusted advice, insight into best in class approaches and can facilitate pre-market engagement activity within the local contractor community.

Minimum standards, specifications and social value? We'll help you with that too.

Procurement expertise

We've done the hard work already having established the DPS in full compliance with the Public Contracts Regulations 2015 and evaluating and selecting initial suppliers. With a compliant procurement solution already in place, your requirement can be tendered in as little as 10 days. We'll apply our robust project management disciplines to support you through this process, ensuring that a highly tailored contract is delivered in a quick and efficient manner.

Responsive Repairs & Voids Works DPS Overview

The table below provides further information related to the specific requirements per category.

Compliant

with the Public Contracts Regulations 2015

Efficiency

swift procurement and award of contracts

Engagement

with regional suppliers with capacity and capability

Flexibility

to use your pricing and contract terms

Innovation

enables innovative suppliers to join at any time

Due diligence

supplier checks at the set up stage

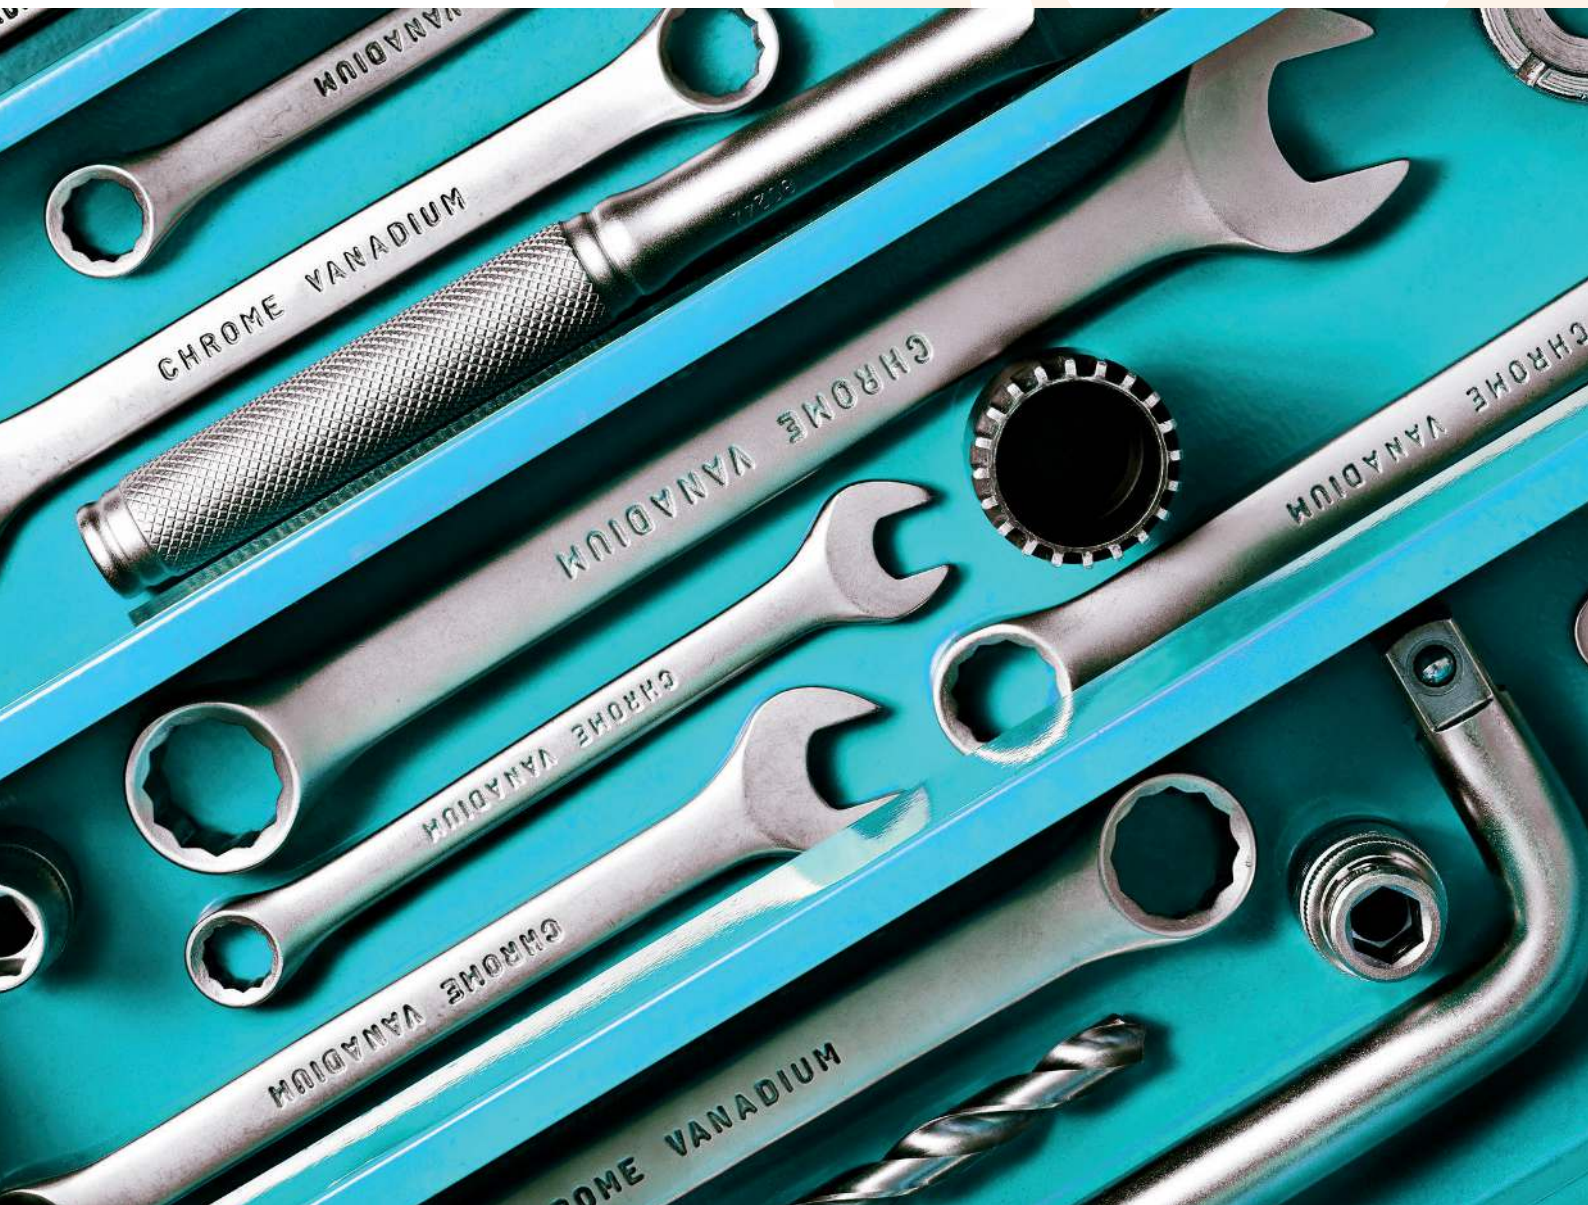

Fully compliant with the Public Contracts Regulations 2015, you can reduce your procurement costs with a streamlined procurement process and benefit from a wealth of procurement knowledge and insight.

Our unique service model provides complete assistance from solution design and call-off through to award. Our tailored approach is not only flexible, but one that incorporates due diligence checks at the call off stage and supplier management, providing an additional layer of reassurance.

The adaptability of the DPS means new suppliers and contractors can apply to join at any point during its lifetime, ensuring the supplier pool remains relevant, competitive, and varied – essential in achieving value for money and mitigating risk.

With the ability to work with existing specifications, pricing mechanisms and contract terms, the Responsive Repairs, Voids & Associated Works Solution from PfH is a highly effective route to market which can be fully tailored to your delivery model.
